

Anti-Microbial Sanitary Bin Liners

Our range of Anti-Microbial Sanitary Bin Liners provide a hygienic and convenient solution for the disposal of sanitary waste products. The liners include Biomaster® anti-microbial product protection which is proven to reduce the bacterial levels on the liners by up to 99.99%. The liners are also produced using a fresh floral additive which helps to reduce any unpleasant odours. The combination of the Biomaster® product protection and the floral additive removes the need for additional chemicals and helps improve site servicing times.
